Part 1

Manitoba Population Report – 2015

Introduction and Overview

FOREWORD

The population data shown in this report are based on records of residents registered with Manitoba Health as at June 1, 2015.

Data for the regions include population of cities, towns, villages, rural municipalities, local government districts, and unorganized territories. It should be noted that villages and towns are separately identified if these are incorporated. If unincorporated, the population counts are included in the rural municipality in which these are located.

Population for small areas (for example, a rural town) can be biased because the mailing address may be reported as the place of residence. An individual residing outside the town, but having a mailing address there, may be counted as living within the town. This bias in the population figures is reduced as the catchment area increases. Thus, regional estimates are not significantly affected by the mis-classification bias. Fluctuations from year to year for these small areas might also be affected by changes to mail delivery locations assigned by Canada Post.

The type of place indicates First Nations, unorganized territory, and municipal status of incorporated places (city, town, village, rural municipality, and local government district). The following list indicates the abbreviations used for types of places:

FN First Nation Band

LGD Local Government District - a designated area having no local government; administered by the province through a resident administrator.

R.H.A. Regional Health Authority

RM Rural Municipality

POPULATION REPORTING CHANGES

Internal improvements affecting population reporting have enabled more appropriate identification of on-reserve residents of some First Nations communities as of 2012 and again as of 2015. **Please note that the 2015 improvements in identification of on-reserve residents have been applied retrospectively to the 2014 and 2013 population reports**, because the improvements have a significant effect on certain 2013 and 2014 populations in these reports.

Current-year and five-year populations for RHA Districts were tabulated using the RHA District definitions current as of June 1st, 2015.

MUNICIPAL AMALGAMATIONS

A series of municipal amalgamations, which were enacted between November 2013 and May 2014, came into effect as of January 1st, 2015. The 2015 population reports use the amalgamated municipalities, because these municipalities are the municipalities defined at the population date. To assist in the transition to reporting on the populations of the the amalgamated municipalities, however, we are also providing populations by pre-amalgamation municipality as an appendix to these reports.

Population Changes

The purpose of this section is to highlight changes in the population of Manitoba. Changes are determined by comparing the registration file for the current year to that of the previous year. A file is created for additions (residents on the current file but not on the previous file) and one for deletions (residents on the previous file and not on the current file). After determining reason for coverage or cancellation, those coded as deaths, births and other(1) are separated, leaving only arrivals and departures. The deletions are subtracted from the additions with a resulting net migration.

Figures 1a, 1b, and 1c depict the actual number of residents cancelled from the registration system upon notification of death during the period June 1, 2014 to June 1, 2015. Figures 1b and 1c are female and male profiles.

Figures 2a, 2b, and 2c represent population migration. In-migration and out-migration with a resulting net migration trend line are depicted. Manitoba gained population through in-migration between June 1, 2014 and June 1, 2015. There were 30,214 in-migrants and 14,931 out-migrants resulting in a net in-migration of 18,823. Figures 2b and 2c are the female and male trends.

(1) Member of the Armed Forces, inmate of a penitentiary, or not located.

APPENDIX

MUNICIPAL POPULATIONS PRIOR TO MUNICIPAL AMALGAMATIONS

A series of municipal amalgamations, which were enacted between November 2013 and May 2014, came into effect as of January 1st, 2015. The 2015 population reports use the amalgamated municipalities, because these municipalities are the municipalities defined at the population date. To assist in the transition to reporting on the populations of the amalgamated municipalities, however, populations by pre-amalgamation municipality have been provided in this appendix to the population report.
